- An explanation of the Project requested,
- Justification for the need for your requested Project,
- Time frame (when Project will be started/completed),
- Budget for Project, and
- Signature of Department Head or other person(s) designated to approve grant requests.

Please disclose all other sources of funding that you have received, or are requesting to receive, for your project, including any amount contributed by your institution/medical facility.

### Requirements:

- The program is conducted in the MD/D.C./N. Va region.
- The project/program/service is related to Pediatric or Adolescent oncology
- A final report that includes the budget, 2-3 photos, and an evaluation to be submitted within three months of the grant end date.
